- Joint call with Clinical Decision Support
  - See Bret's email for background document
  - Meeting purpose:
    - Discuss the overall purpose of the call – the Context-Aware Knowledge Retrieval Application (Infobutton) Standard in the context of the Genetics Domain.
    - Go over issues and potential solutions in the included document
    - Set an agenda for the January HL7 Working Group Meeting
- FHIR Connectathon Update
  - FHIR Genomics Track is in!
  - To give everyone an accurate picture of who will \*definitely\* be there (barring the typical joys of winter air travel), we ask those who have registration confirmations to fill out the Google sheet linked here indicating their contact information and intended support. The track coordinators will place you on track-specific Skype chats to help in preparation for the connectathon.
