

TSC nominations

TSC Nominations

- Per the HL7 GOM, the TSC is to form an ad hoc Nominations committee composed of the members of the TSC not standing for re-election this year.
- Nominating Committee:
 - Patrick Loyd (Technical and Support Services Steering Division)
 - Tony Julian (Foundation and Technology Steering Division)
 - Gregg Seppala (Structure and Semantic Design Steering Division)
 - Ed Tripp (Domain Experts Steering Division)
 - Jay Zimmerman (Affiliate Representative)

TSC Nominations

■ 09.01.01 TSC Elections

...

During the second WGM each year those SD co-chairs and the Affiliate representative not up for reelection that year shall form an *ad hoc* TSC nomination committee with the objective of ensuring at least two candidates for each available position. The committee shall elect its own chair with the concurrence of the TSC. Should the Work Groups or, in the case of the Affiliate representative, the Affiliate chairs fail to nominate sufficient candidates, the *ad hoc* committee shall reach out to viable candidates for inclusion on the ballot. The TSC nomination committee shall disband at the close of the nomination period.

TSC Nominations

- The TSC nomination period is open until June 15th.
 - Obviously, the Orlando WGM represents a prime opportunity for the TSC Nominations committee to sound out and identify candidates.
- One additional item to note is that Gregg is resigning from the TSC after the WGM.
 - The nomination committee will need to identify candidates for that open position as well as the normal vacancy for SSDSD.
 - The SSDSD is responsible for identifying a short term replacement, but the GOM also calls for an election for a replacement who can serve the rest of the term.
