## Admin

[14432](#) - clarify boundaries to Parameter resource (Priority:1)

- Tracker items not yet triaged

[14433](#) - add example and clarify how to profile parameters (Priority:1)

- Tracker items not yet triaged

## [brett@riverrockassociates.com](mailto:brett@riverrockassociates.com)

[14235](#) - Structure contradicts Introduction (Priority:9)

- Referenced duplicate doesn't exist as a FHIR tracker item

## [brian\\_pos@hotmail.com](mailto:brian_pos@hotmail.com)

[7671](#) - 2015May core #962 - The notion of a provider, in a role, for a period of time seems like a common pattern. Should this be pulled out into a participation type. (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[7964](#) - 2015May core #1284 - Update type of Priority. (Priority:9)

- Item is retracted or withdrawn but no resolution date is specified

[8675](#) - Add Encounter.CLASS field to search (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[9620](#) - No place to store alternate name, alias or historic name on the practitioner resource (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[9622](#) - No place to store location specific contact info or IDs on the practitioner resource (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[10099](#) - connectionType element is vague, and not robust enough. (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[10174](#) - (HTTP) Method should be a standard extension of Endpoint (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[10175](#) - payloadFormat should be 1..\*, and be part of a payload backbone element (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[10234](#) - Locations should be able to include the shape (geocoded) of its physical boundry (Priority:9)

- Item has a duplicate listed but doesn't have a status of Duplicate

[12685](#) - Linking of Accounts required (Priority:9)

- Vote is invalid

[14118](#) - Why does FHIR use codes that have been deprecated in V2.3? (Priority:9)

- Tracker item is marked as 'Waiting for Input' but there are no 'Waiting for input email(s)' specified. At least one address must be present

[14207](#) - Cannot implement Patient, RelatedPerson and Person relations with STU3 resources (Priority:9)

- A vote is recorded but no resolution date is specified

## **bryn@databaseconsultinggroup.com**

[13213](#) - Add a 'definition' criteria to PlanDefinition (Priority:9)

- Item has a duplicate listed but doesn't have a status of Duplicate

[13785](#) - PlanDefinition needs search for action.definition (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[13926](#) - PlanDefinition - multiple conditions for an action, howto (Priority:9)

- Item has a duplicate listed but doesn't have a status of Duplicate

[14077](#) - plandefinition.action.condition needs to clarify and vs. or (Priority:9)

- A vote is recorded but no ballot resolution is specified
- Item doesn't have a duplicate listed but has a status of Duplicate

## **cooper@epic.com**

[8513](#) - Practitioner.qualification needs work (Priority:9)

- Item is marked as requiring change but no change type identified
- Status can't be 'Resolved - Change required' if resolution isn't persuasive, persuasive with mod or not persuasive with mod

[9989](#) - Slot is resource-specific, which makes client handling of multi-resource appts hard (Priority:9)

- Item is retracted or withdrawn but no resolution date is specified

## **e.kramer@furore.com**

[12807](#) - Document how cardinality and binding interact (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13080](#) - Add reference URL to code system ICPC-1-NL (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13088](#) - Conformance language for the use of modifier extensions (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13404](#) - Add HC NPN code system and value set URI (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13417](#) - Publisher Issuer with resources (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13444](#) - The ussg example will need to be refactored since DataElement has been removed (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13465](#) - Require any element that maps to some status codes to be is-modifier (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13646](#) - Need to clarify that presence of 'system' part in a quantity param modifies search behavior (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13647](#) - Regular Expression for FHIR References is incorrect (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13654](#) - Example for extension uses DSTU2 syntax (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13670](#) - Missing word on mappings page (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13715](#) - Create an EventDefinition resource (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13794](#) - Extensibility examples are wrong - fixedUri missing, context and contextType need better descriptions and the kind is also wrong (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13839](#) - Ambiguities dealing with combined typeref + child constraints in ElementDefinition (Priority:9)

- Item is retracted or withdrawn but no resolution date is specified

[13896](#) - general page is needed to explain intent of resource 'mapping' pages (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13913](#) - Error in CapabilityStatement - Document section (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13925](#) - Bad link from valueset-binding-strength (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13947](#) - Adjust Questionnaire to align with Definition pattern (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[13991](#) - Uncorrect FhirPath expression in nsd-1 (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14008](#) - clarify the boundaries (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14072](#) - Add note to security section about use of PUT leaking information (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14078](#) - Extension StructureDefinition example wrong kind value (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14081](#) - FHIR wiki teaching page bad links (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14087](#) - Validate operation description: Example for Validate a proposed patient update with the Parameters syntax is not correct (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14097](#) - Questionnaire Invariant que-10 doesn't handle open-choice (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14102](#) - Incorrect code in description of Task.priority (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14119](#) - Typo: Definition of Insurance in Request Logical Model (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14190](#) - conformance and knowledge resource should be links (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14202](#) - Example valueBoolean in extension is wrong, shows a quoted string (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14217](#) - Add source : url to Resource.meta (Priority:9)

- Item has change pre-applied but resolution is sitting at 'change required' - check that applied change is same as agreed change and then change status to Applied, otherwise remove the 'pre-applied' flag and note any reversal needed in the resolution

[14312](#) - De-identification section should mention narrative and documents (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14326](#) - Re-add range-2 invariant (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14328](#) - No of datatypes miscalculation (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14378](#) - capabilitystatement-expectation (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14389](#) - eld-16 doesn't allow "@default" as slice name (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14390](#) - Fix erroneous text on :contains (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

## **ehaas@healthdatainc.com**

[14149](#) - Clarify use of "comments" in Media and ImagingStudy (Priority:1)

- HTML Page(s) includes both 'None' and an actual page
- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[12673](#) - How to handle HCT/TP (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14019](#) - Ambiguous text on obs-7 (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[14158](#) - Add implant/explant procedure to DeviceUseStatement (Priority:9)

- Item has change pre-applied but resolution is no change
- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

## **gforge2@dilute.net**

[9092](#) - Specify in a formal StructureDefinition that nulls are allowed in extension and arrays of primitives (Priority:9)

- Vote is invalid

[11947](#) - Add required search with only patient parameter. - 2016-09 daf#33 (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[11950](#) - Remove 'category' as a required search parameter for DAF CareTeam. - 2016-09 daf#36 (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[11952](#) - Change Observation.category value set binding from 'example' to 'extensible' in daf-core-resultobs - 2016-09 daf#38 (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[11953](#) - Change DiagnosticReport.category value set binding from 'example' to 'extensible' in dav-core-diagnosticreport - 2016-09 daf#39 (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[13154](#) - Confusing section on the narrative page (Priority:9)

- A vote is recorded but no ballot resolution is specified

[13280](#) - Show examples of a (complex) POST-based search (Priority:9)

- A vote is recorded but no ballot resolution is specified

[13316](#) - FHIR mapping language: enclosing name of fields between quotes (Priority:9)

- Vote is invalid

[13344](#) - Allow valueRelatedArtifact in extensinos (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

## **gilusa@gmail.com**

[12508](#) - Change discription for sequence resource (Priority:9)

- Item is marked as requiring change but no change type identified
- Status can't be 'Resolved - Change required' if resolution isn't persuasive, persuasive with mod or not persuasive with mod

[13831](#) - Add Observation-genetics.Allele.Id for VMC id storage (Priority:9)

- Item is retracted or withdrawn but no resolution date is specified

## **grahameg@gmail.com**

[7383](#) - 2015May core #573 - Five vs. four collection mechanisms (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

[8910](#) - Comments missing for v2 table translations (Priority:9)

- Item is marked as requiring change but no change type identified

[12456](#) - IG Publisher expects unrealistic url for value sets in implementation guide (Priority:9)

- Item is marked as requiring change but no change type identified

[12606](#) - Fix the outdated reference to \$infer operation in the Terminology module page (Priority:9)

- Item is marked as requiring change but no change type identified

[12664](#) - Compare to DSTU2 link broken (Priority:9)

- Item is marked as requiring change but no change type identified

[12665](#) - FHIR Validator should support extension-regex.html. (Priority:9)

- Item is marked as requiring change but no change type identified

[12707](#) - Investigate if there is a FHIRPath engine issue with invariant (Priority:9)

- Item is marked as requiring change but no change type identified

[12730](#) - Filter bindings list in profiles (Priority:9)

- Item is marked as requiring change but no change type identified

[12771](#) - DICOM codesets - naming shortforms are incorrect (Priority:9)

- Tracker item has 'Waiting for input email(s)' specified but the status is not marked as 'Waiting for Input'.Either change the status or remove the emails.

[12855](#) - Publish valueset expansions along with the IG specification (Priority:9)

- Item is marked as requiring change but no change type identified

[12898](#) - allow markdown for jekyll pages in the ig publisher (Priority:9)

- Item is marked as requiring change but no change type identified

[12908](#) - DSTU2 IGs producing STU3 downloads and validator.pack files (Priority:9)

- Item is marked as requiring change but no change type identified

[12915](#) - DSTU2 StructureDefinitions do not validate for IG publisher (Priority:9)

- Item is marked as requiring change but no change type identified

[12961](#) - validation page should warn against improper use (Priority:9)

- A vote is recorded but no ballot resolution is specified

[13069](#) - QA: TestReport.result should not be a modifier (Priority:9)

- Item is marked as requiring change but no change type identified

[13101](#) - Add the ability to capture type.versioning when declaring types in spreadsheets (Priority:9)

- Item is marked as requiring change but no change type identified

[13102](#) - IGPublisher needs to produce narrative XHTML for Bundle instances (Priority:9)

- Item is marked as requiring change but no change type identified

[13105](#) - Show the URL when rendering an OperationDefinition (Priority:9)

- Item is marked as requiring change but no change type identified

[13107](#) - Valueset expansion pages don't indicate abstract content clearly (Priority:9)

- Item is marked as requiring change but no change type identified

[13124](#) - Questionnaire.item is not part of summary but Questionnaire.item.enableWhen is (Priority:9)

- Item is marked as requiring change but no change type identified

[13131](#) - Allow "External" Value Set URIs in IG Value Set Definitions (Priority:9)

- Item is marked as requiring change but no change type identified

[13139](#) - Unable to profile element that use contentReference (Priority:9)

- Item is marked as requiring change but no change type identified

[13156](#) - Incorrect json serialization example (Priority:9)

- Item is marked as requiring change but no change type identified

[13162](#) - PROPOSE: indicate hierarchy (e.g. observation-status "corrected" refines "amended") with ? or tbl\_vjoin\_end.png (Priority:9)

- Item is marked as requiring change but no change type identified

[13170](#) - Remote Erroneous note from page that claims that every page allows comments (Priority:9)

- Item is marked as requiring change but no change type identified

[13173](#) - ele-1 invariant definition does not consider if children() includes value. (Priority:9)

- Item is marked as requiring change but no change type identified

[13177](#) - List the URL for all the search parameters (Priority:9)

- Item is marked as requiring change but no change type identified

[13193](#) - Gforge tracker #10460 not fully resolving issue (Priority:9)

- Item is marked as requiring change but no change type identified

[13241](#) - Add anchors for specialisations of Quantity (Priority:9)

- Item is marked as requiring change but no change type identified

[13257](#) - Typos in the title and content (Priority:9)

- Item is marked as requiring change but no change type identified

[13440](#) - Maturity dependency viewer (Priority:9)

- Item is marked as requiring change but no change type identified

[13469](#) - Incorrect examples on JSON documentation page (Priority:9)

- Item is marked as requiring change but no change type identified

[13473](#) - Incorrect text in JSON tab of the Extension Content (Priority:9)

- Item is marked as requiring change but no change type identified

[13549](#) - FhirPath expressions for Goal, start-date and target-date incorrect (Priority:9)

- Item is marked as requiring change but no change type identified

[13597](#) - publisher abends if any extraneous files in build directory (Priority:9)

- Item is marked as requiring change but no change type identified

[13656](#) - Need to make Standard extension more visible (Priority:9)

- Item is marked as requiring change but no change type identified

[13797](#) - Provide link to download FHIR ValueSet definitions (Priority:9)

- Item is marked as requiring change but no change type identified

[13802](#) - Build page Diff service fails (Priority:9)

- Item is marked as requiring change but no change type identified

[13854](#) - Indented codes should indent subsequent lines of wrapping codes (Priority:9)

- Item is marked as requiring change but no change type identified

[13940](#) - ValueSet should support the code search parameter that is common to 8 other resources (Priority:9)

- Item is marked as requiring change but no change type identified

[14010](#) - Using SNOMED With FHIR - Implicit Value Sets - Add New Query Value for Expression Constraints (Priority:9)

- Item is marked as requiring change but no change type identified

[14270](#) - move the "profiles" directory into the 'source' directory (Priority:9)

- Item is marked as requiring change but no change type identified

**jevans@samvit-solutions.com**

[14115](#) - Add phase to ResearchStudy (Priority:9)

- Item is retracted or withdrawn but no resolution date is specified

**mathews@mitre.org**

[6300](#) - 2015May QICore #16 - can you provide at least an example binding for communication-reasonNotPerformed (Priority:9)

- Vote is invalid

## **michael.donnely@epic.com**

[9249](#) - Manage the Provenance of Practitioner (and Other Resources) using an Extension (Priority:9)

- Tracker item is marked as 'Waiting for Input' but there are no 'Waiting for input email(s)' specified. At least one address must be present

[12364](#) - Added 'Direct-project' to valueset-endpoint-connection-type (Priority:9)

- Item has change pre-applied but resolution is sitting at 'change required' - check that applied change is same as agreed change and then change status to Applied, otherwise remove the 'pre-applied' flag and note any reversal needed in the resolution

## **mpeters@gevityinc.com**

[14149](#) - Clarify use of "comments" in Media and ImagingStudy (Priority:1)

- Can only have one Responsible Work Group (support for multiples is an artifact of historical behavior). Work groups interested in a resource or page can add the information to interestedParties. Individuals (including co-chairs) interested in a particular item can subscribe.

[14377](#) - "reasons" out of sync for medication and immunization resources (Priority:1)

- Can only have one Responsible Work Group (support for multiples is an artifact of historical behavior). Work groups interested in a resource or page can add the information to interestedParties. Individuals (including co-chairs) interested in a particular item can subscribe.
- Resource(s) includes both 'None' and an actual resource

[13312](#) - AdverseEvent.event - binding to SNOMED CT Clinical Findings (Example) - inappropriate (Priority:9)

- A vote is recorded but no ballot resolution is specified

## **panzeriv@mail.ustc.edu.cn**

[10281](#) - Examples contain too long ID values (Priority:9)

- A target release has been specified but no change has yet been agreed. (Indicate desired release for a proposed change via comment).

## **pknapp@pknapp.com**

[14254](#) - Make the naming of linking elements across resources consistent (Priority:1)

- Resource(s) includes both 'None' and an actual resource
- Item has change pre-applied but resolution is sitting at 'change required' - check that applied change is same as agreed change and then change status to Applied, otherwise remove the 'pre-applied' flag and note any reversal needed in the resolution

[7877](#) - 2015May core #1197 - Claim mappings to X12 v5010 837 (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[9127](#) - Contract has two elements named 'subject'. This is potentially confusing for no good purpose (Priority:9)

- Item has change pre-applied but resolution is no change

[13612](#) - Create a Submit operation for Claim (Priority:9)

- Item has change pre-applied but resolution is sitting at 'change required' - check that applied change is same as agreed change and then change status to Applied, otherwise remove the 'pre-applied' flag and note any reversal needed in the resolution

[13676](#) - Apply 13673 and 13674 to ProcessResponse (Priority:9)

- Item is marked as requiring change but no change type identified

[14239](#) - Add Patient search parameter to Coverage (Priority:9)

- Item has change pre-applied but resolution is sitting at 'change required' - check that applied change is same as agreed change and then change status to Applied, otherwise remove the 'pre-applied' flag and note any reversal needed in the resolution

**rick.geimer@lantanagroup.com**

[9630](#) - Consultation Note Composition.type has no binding (Priority:9)

- Item is marked as requiring change but no change type identified

[10318](#) - All Codes systems using LOINC point to a URN with an OID rather than the preferred LOINC URL (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10319](#) - All Codes systems using LOINC point to a URN with an OID rather than the preferred LOINC URL (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10325](#) - History of Past Illness does not include DAF-condition (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10326](#) - History of Past Illness does not include DAF-condition (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10328](#) - Social History Section should include Smoking History entry (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10329](#) - Social History Section should include Smoking History entry (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10330](#) - Social History Section should include Smoking History entry (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10332](#) - More complex constraints have not been addressed (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10334](#) - More complex constraints have not been addressed (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[10339](#) - Composition.type needs to have a valueset binding (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

[11885](#) - Assessment and plan entries should use the DAF Assessment and Treatment plan profile. - 2016-09 ccda #63 (Priority:9)

- A resolution date is recorded and resolution isn't Persuasive, Not Related or Considered for Future Use but there is no text in resolution
- Ballot item is closed with ballot resolution other than Persuasive and doesn't have a resolution specified

**rrhausam@gmail.com**

[13208](#) - Add basic property for "inactive" to CodeSystem/ConceptStatus (Priority:9)

- Tracker item is marked as 'Waiting for Input' but there are no 'Waiting for input email(s)' specified. At least one address must be present

[14006](#) - Add Implicit SNOMED CT ValueSet URIs for ECL expressions (Priority:9)

- Item doesn't have a duplicate listed but has a status of Duplicate

**sh@gefyra.de**

[13033](#) - 8.3.3 De-normalized Data (Priority:9)

- Item is marked as requiring change but no change type identified

[13599](#) - Code for "Common Law" is missing in MaritalStatus ValueSet (Priority:9)

- Item is retracted or withdrawn but no resolution date is specified

**yu09@cdc.gov**

[14187](#) - Change doseStatus to "nocount" in example (Priority:9)

- Must specify a ballot weight if ballot is specified
